

Curriculum Map

Below is an outline map of our curriculum showing what is covered in each year group and in each subject. Each class teacher holds a Meet the Teacher information evening at the start of each academic year and sends out termly newsletters where they discuss the curriculum in more depth.

Art and DT are linked to Science, History and Geography topics.

Each class has half a term of cookery and half a term of Forest School. In addition to this, pupils in Key Stage 2 have a term of swimming each year and weekly French lessons.

We use the following published schemes, tailoring and supplementing them to our pupils.

Maths: White Rose

PSHE: Jigsaw. Each class does the same themes at different levels.

Computing: Rising Stars

Music: Charanga

Science KS1: Mixed aged plans Hamilton

French KS2: Salut!

Literacy and Maths are mapped out on separate documents

Skills progression for reading and writing are mapped out on separate documents.

In addition to the enrichment activities below, the school holds science and RE days and a DT week focusing on book making.

Key Stage 1

Most topics are taught over a 2 year rolling programme. Although there are the same broad themes of enquiry in RE in Year A and Year B, different content within each theme will be studied in each year of the rolling programme.

Year 1 and Year 2 share the same topics for all the foundation subjects. By the end of the key stage, children will have completed the national curriculum requirements for both Year 1 and Year 2. Teachers plan carefully differentiated lessons to ensure that Year 2 children are challenged more within each topic.
